

## For a healthy togetherness with SORB<sup>®</sup>med

### SORB<sup>®</sup>med disinfectant with 85% ethanol (v/v)

Relaxing contact restrictions is a welcome sign of more normality for many of us.

So that we can enjoy them in the long term, the requirements for our own protective measures are increasing due to more contact possibilities.

In addition to distance rules, mouth and nose protection, hand washing and hand disinfection are also an efficient long-term means of dealing with COVID-19 and other infectious diseases, especially in the area of operational protection for your employees and customers.

#### Our SORB<sup>®</sup>med disinfectants helps

- on road
- at work
- in everyday life!
- always at hand and ready to use

## SORB<sup>®</sup>med Hand-Disinfectant

### Our skin-friendly disinfectant

comprehensive spectrum of effect against bacteria and viruses

- very skin-friendly
- no pungent smell
- short absorption time
- suitable for on the go
- ethanol 85% (v/v)
