

SORB^{®XT} Quick'n Easy

Mobile, space-saving and set up in seconds

Use the Quick'n Easy container as a collection container and place it under the area of an expected leak or spill.

The PVC-material, with a special surface coating, makes it suitable for both indoor and outdoor use.

Quick'n Easy makes the difference

By folding and rolling up, the Quick'n Easy is extremely space-saving and super light. Due to its flexible walls, it can also be used in hard-to-reach places.

Available in three sizes

400x400mm, 600x600mm and 800x600mm
