From biological [stripping agents](#) to [antistatic containment trays](#) – we're fully stocked and ready to deliver our products to you without long wait times!

TRADE FAIRS & EVENTS

Check out our
exhibition
calendar

We'll be attending several industry trade shows again in 2025. Check out our event calendar and save the following dates!

PACKING OPTIMIZATION

for **SORB®XT 50L**

scheduled for **July 1st 2025**

Instead of packaging 2 x 30 bags, we will be switching to the standard packaging of 45 bags per pallet. This change eliminates the need for double stacking, making transportation and storage even safer and more stable. Don't worry: there will be a transition period, giving you plenty of time to adjust. We plan to implement this change starting July 1st, 2025.

WE SWITCH TO POLYPROPYLENE

for **SORB®XT Pillows & Pipes**

Natural products have their limitations. That's why we've decided to start filling our cushions and tubes with polypropylene (PP) in the future. This change only affects a small number of products. The way you use them remains the same.

Do you have any questions?

Don't hesitate to contact us! We will be happy to help you with any questions you may have and will also arrange a personal meeting with you. Simply write us a message or call us directly.
